Reasons for Allowance

The independent claims recite sending attachments with voicemail messages for automatic callback and a limitation for the following:

"prompting a caller associated with the voicemail for a call back number, wherein the call back number is attached to the voicemail message for automatic call back initiated by the subscriber"

The prior art of record teaches voicemail with callback features but not with automatic callback as recited in the limitation. New search updates revealed no other prior art which teaches the limitation in the context of the claims. Therefore, claims 110-131 are indicated allowable.
